The Post is now reporting that the recommendations include reductions to Bears Ears, Grand Staircase, and Cascade (no real surprises there). I guess we'll see if the report specifically delineates where these reductions would occur.

Passing this along...obviously this is not something that should circulate beyond us at this point.

A copy of the Department's press release and a summary of the report and the review process is attached, both in the same document. I do not know when or if the actual report will be released.

Everyone has done a great job on this, but the process is not quite finished and we may need your assistance again before it is.
